

STUDENT TRANSPORTATION IN PRIVATE VEHICLES

School bus transportation is provided for all officially approved transportation requests to and from student activities. The use of private vehicles for transportation of students, volunteers, teachers and other employees to and from student activities is discouraged and subject to any provisions of applicable employee labor agreements. If the need arises, transportation by private vehicles is permitted only if previously approved by the appropriate administrator.

If it is necessary to use private vehicles, evidence must be presented to the appropriate administrator that the vehicle and driver are covered for liability, medical payments, physical damage and uninsured motorist liability. The Board maintains excess insurance through a non-ownership liability endorsement to its bus fleet insurance policy covering all private vehicles used for transportation to and from student activities. This excess insurance provides compensation for injury or death to any student or authorized passenger caused by any accident arising out of or in connection with the operation of a private vehicle transporting students and other authorized passengers. The amounts and terms must be agreed upon by the Board and the insurance company.
