

FOOD SALE STANDARDS

Through its food service program, the Board has a responsibility to encourage students to form healthful eating habits. The Board shall enforce standards governing the types of food sold in the schools and the time and place at which each type of food is sold. These standards are based on the following guidelines:

1. The types of food sold in the schools are determined as to their potential to contribute significantly to the daily nutritional needs of students and to enhance the District's nutrition philosophy and nutrition education curriculum.
2. The time of day and place for the sale of food to students must be consistent with the nutrient in-take needs and eating patterns of students and compatible with class schedules for schools within the District. Separate standards may be established for the types of food to be sold to staff members and for special or extracurricular events.
3. Food sales shall not compete with the Universal Meals Program as governed by federal law. The District's procedures shall enforce non-competitiveness.
