

HOME-BOUND INSTRUCTION

The Board provides instruction in compliance with the law, as appropriate, for students confined to home.

1. Home instruction teachers are provided for students at the request of parents only after such instruction is approved by the Chief Executive Officer or his/her designee and verified as needed by a licensed physician or psychologist. Home instruction teachers, who are provided by the school, are paid at the designated hourly rate.
2. Home instruction teachers may be the student's regular classroom teachers only if the Chief Executive Officer or his/her designee has given permission.
3. Home instruction teachers must be certificated teachers who hold valid State Department of Education certificates.
4. All work must meet the standards of the State Department of Education and be done under the supervision of the Chief Executive Officer or his/her designee. If the home instruction teacher is not the student's regular classroom teacher, the building principal arranges cooperative communications among the regular classroom teachers and home instructors to ensure a proper program of instruction for the student.
5. The duration and time of any home instruction program is determined by the Chief Executive Officer or his/her designee on the basis of information received from teachers, parents, medical personnel and the building principal.
