

SPECIAL USE OF SCHOOL BUSES

Buses owned by the District are used primarily for the purpose of transporting students and school personnel for school-approved activities. They are available to all classes, groups or organizations within the schools in accordance with the following.

1. The use of District-owned buses is scheduled through the transportation office.
2. Fees for the use of the buses are established and made part of the District regulations.
3. The drivers of the buses must possess valid commercial drivers' licenses as required by law.
4. The drivers of the buses ensure that the buses are not overloaded, that students conduct themselves in a safe and orderly manner while in the buses and that the buses are operated in a safe and lawful manner.
5. The drivers of the buses are responsible for reporting in writing to the transportation office the condition of buses, particularly any need for repair or servicing.

Approved Non-Routine Use of School Buses

The "non-routine use of school buses" is defined as transportation of passengers for purposes other than regularly scheduled routes to and from school. School buses may be used for non-routine trips only when the trips do not interfere with routine transportation services, and the proper permits, chaperones and pre-trip inspections are obtained. Approved non-routine uses of school buses include:

1. trips that are extensions of the instructional program as determined by the District or county board of mental retardation and developmental disabilities administration;
2. trips for the transportation of enrolled students directly participating in school-sponsored events. A "school-sponsored event" is defined as any activity in which students are participating and are under the direct supervision and control of a certified staff member or any advisor as designated by the Chief Executive Officer;

3. transporting of students taking part in summer recreation programs when such programs are sponsored by a recreation commission and there is an agreement between the Board and the recreation commission;
4. trips for transportation of the aged when contracted with a municipal corporation or a public or nonprofit private agency or organization delivering services to the aged;
5. trips for transportation of students and/or adults as approved by the Board to and from events within the local community which are school or local community sponsored (such events are open to the public);
6. emergency evacuation and/or emergency evacuation drills when such emergencies are declared by state or local directors of emergency disaster services;
7. a civil emergency as declared by the governor;
8. transporting school employees engaged in approved employee improvement programs or
9. transportation coordination, to participate with local human service providers, in transporting welfare reform participants and those participating in temporary assistance programs.

The District may contract with non-public schools located within the District to make buses available to use for transporting non-public school students to and from school-related activities that would be approved if being offered by a public school to public school students.
